REV UP PRODUCTIVITY

WITH CLUB CAR'S NEW CARRYALL® 500 FACILITIES-ENGINEERING VEHICLE WITH VAN BOX SYSTEM.

Your crews need work utility vehicles with lots of secure cargo space and the right tools and equipment to stay on the move. Club Car gives you that and more in our new Carryall 500 Facilities-Engineering Vehicle with Van Box System.

The vehicle is carefully configured with a task-multiplying bundle of accessories based on buying patterns of customers like you. At its core is a new and improved white powder-coated aluminum van box system with:

- A** White van box:
 - 1** Without windows for added security and to prevent leakage
 - 2** Double rear doors
 - 3** A single latch on right side door for one-hand closing
 - 4** A shelf that supports up to 200 lbs. (90 kg)
 - 5** An interior LED light that activates when doors are open
- B** Top-mounted double ladder rack
- C** Heavy-duty front brush guard (not shown)
- D** White canopy
- E** Hinged windshield
- F** Reflector package
- G** Rear-mounted reflective triangle
- H** USB ports to charge electronics
- I** Heavy-duty two-inch receiver for towing capability

- J** Rear fender guards
- K** Electric bed lift
- L** Differential guard (not shown)
- M** Driver- and passenger-side mirrors
- N** Locking glove box to store valuables
- O** Reverse light and reverse alarm combo (not shown)

Electric Models Only:

- P** Extended-range battery system
- Q** Single-point watering system for easy battery maintenance

For other configurations, ask your local Authorized Club Car Dealer about our Custom Solutions Department.

POWER, VERSATILITY AND BIG SAVINGS

This vehicle is built on the renowned Carryall 500 work utility vehicle platform.

With a total vehicle capacity of up to 1,200 lbs (544 kg), it does the work of a small pick-up truck at a fraction of the cost. The gasoline model is powered by a 14-hp-rated, single-cylinder overhead cam engine with

electronic fuel injection that delivers superior power and torque, yet cuts fuel consumption by 50% when compared to some major competitive models.

The electric model is powered by a 48-volt system and 500-amp DC motor controller with controlled downhill ability, zero-speed detect to prevent roll away, regenerative braking, hand-held speed programmability and diagnostic capabilities. Smart onboard charges issue alerts to prevent common user errors, and reel retractors allow for "opportunity charging."

The vehicle's rustproof aircraft-grade aluminum frame withstands the fertilizers, water and lawn chemicals often used on campuses, resorts and other sites.

Standard colors are dark gray body and gray seats. Optional colors are available.

SIMPLIFY HOUSEKEEPING WITH CLUB CAR'S HOUSEKEEPING VEHICLE

If you want to keep your housekeepers on the move and boost productivity, you'll need to provide them with reliable vehicles that put everything they need within reach.

Our new Carryall® 500 Housekeeping Vehicle fits that bill.

This quiet, zero-emissions vehicle comes with a bundle of accessories based on buying patterns of customers like you. It boosts productivity, sustainability and efficiency.

OUR SECURE VAN BOX MAKES THE DIFFERENCE.

The package includes an L-shaped housekeeping van box with standard:

- A** Extended-height drop-down rear compartment
- B** Interior light
- C** Locking doors
- D** Space for full-sized vacuum cleaner, brooms, mops and other supplies
- E** Drawer for storage of small items
- F** Shelving for towels, linens, cleaning supplies and more
- G** Tail lights
- H** Tripod mirrors

The vehicle also features:

- I** White canopy and hinged windshield
- J** USB port for charging electronics
- K** Locking glove box
- L** Rear fender guards
- M** Differential guard
- N** Driver- and passenger-side mirrors (not shown)

Electric Model Only

- O** Extended-range batteries
- P** Single-point watering system
- Q** Instrument panel with battery level (not shown)

For other configurations, ask your local Authorized Club Car Dealer about our Custom Solutions Department.

GASOLINE OR ELECTRIC POWERTRAINS AND A RUSTPROOF FRAME

The electric model features a 48-volt battery pack and 500-amp DC motor controller. The smart onboard charger with reel retractor allows for easy charging and prevents common user errors.

The gasoline model features a 14-hp-rated single-cylinder overhead cam engine with electronic fuel injection that gets up to twice the mileage of some competitive vehicles, yet delivers more power and torque.

Both are built on rustproof aircraft-grade aluminum frames that withstand water, fertilizers and chemicals.

The vehicle comes standard with dark gray bodies and gray seats. Optional colors are available.
